EDUCATION

Bachelor's Degree in Statistics
Laikipia University, Laikipia, Kenya,
Sep 2019 - Dec 2023

TECHNICAL SKILLS

Data Visualization: Tableau, Power BI
Languages: Python, TypeScript
Web Development: HTML, CSS, Node.js, React
Tools: Jira, Postman, Cypress.
Data Analysis Tools: Excel, SQL.
Statistical : Descriptive and regression analysis, time series analysis

PROFESSIONAL SUMMARY

In today's world, industries rely on data to solve problems and improve performance. I am a dedicated Data Analyst with skills in Python, SQL, Tableau, Power BI, and QA/QE tools such as Jira and Postman. I use data to uncover insights that support better decisions, efficient operations, and sustainable growth.

WORK EXPERIENCE

Product Operations Associate - SunCulture LTD, Nairobi *Aug 2026 - present*

- Determine where automation and standardization may be used to optimize processes.
- Utilize web and mobile app analytics platforms to monitor user behavior, app performance, and product health. Leverage this data to make informed, daily product decisions and recommendations.
- Assist in managing and optimizing the product team's software stack while maintaining clear documentation of processes.

Data and Operations Intern - SunCulture LTD, Nairobi *Jan 2026 - July 2026*

- Analyzing trial and operational data to identify trends and provide real-time support for strategic decision-making.
- Maintaining regular reports on sales, customer conversion, and trial performance to track key metrics.
- Ensures database accuracy by resolving discrepancies and managing routine data updates.
- Evaluates customer behavior and sales outlet potential to optimize reach and conversion rates.

QA/QE Trainee - Teach2Give, Nyeri *Sept 2025 - Dec 2025*

- Gained experience in manual testing, writing and executing test cases, documenting defects, and applying core testing methodologies to ensure product quality.
- Worked across the frontend and backend, testing APIs, validating database operations, and reviewing UI functionality to ensure smooth integration and end-to-end system performance.
- Built practical cloud skills by deploying the backend, frontend, and database to Azure, performing system checks, and ensuring successful application functionality in a live cloud environment.

Tableau Data Analyst Intern - Teach2Give, Nyeri *Jan 2025 – March 2025*

- Utilized Tableau Prep for data preparation and creating visualizations and dashboards in Tableau.
- Gained experience in data analysis, reporting, and presenting findings effectively through interactive dashboards.
- Collaborating in a team to develop user stories, ensuring data-driven decisions align with business goals.

Sales Representative - JACE Farms and Consultancy LTD *Sept 2023 - June 2024*

- Delivered data-driven consultancy and extension services to farmers, managed sales operations, and developed marketing strategies that improved client satisfaction and overall business growth.
- Analyzed business and agricultural data to identify trends, guide decision-making, and enhance productivity.

Data Analyst Intern - *I Choose Life-Africa, Laikipia County Office* *July 2023 - Sept 2023*

- Assisted in data collection, cleaning, and analysis for health and education programs.
- Created reports and visualizations to inform strategic decision-making.
- Supported the team with actionable insights derived from statistical models and surveys.

PROJECTS & ACHIEVEMENTS

- **Titanic Survival Prediction (Python, Machine Learning)**: Built predictive models to analyse survival rates based on passenger demographics and conducted data cleaning, feature engineering, and exploratory data analysis.
- **Real Estate Data Analysis (Python)**: Analysed Mexico City housing data to uncover trends in pricing and property features, applied data wrangling techniques and developed visualizations for insights using Python libraries.

CERTIFICATIONS & TRAINING

- Certified Tableau Data Analyst Badge
- Data Analyst in Tableau
- Alx -Professional Foundations
- Alx_AI Career Essentials
- Associate Data Analyst in SQL
- Associate Data Engineer SQL
- ALX Virtual Assistant
- Cisco CPA – Programming Essentials in C++
